

## Staff Screening/Disabilities Training Procedure

Education staff are trained in the use and practice of the ESI (Early Screening Inventory), ASQ and DECA/ASQ-SE screening tools, as well as, working with children who have challenging behaviors or special needs. They are prepared for children with severe disabilities prior to their entry.

Training related to working with children with disabilities is offered at the ESD, in the community, at the school districts, and in the region. EHS/HS/ECEAP training is planned in response to the needs and requests of the staff.
